

CONCRETE TECHNOLOGIES FOR SUSTAINABLE BUILDINGS

A Technical Dialogue

Thursday, November 23, 2006
7:30 am – Noon
Robson Square Conference Centre
800 Robson Street, Vancouver
Room C150/180

This workshop will discuss the need for sustainable concrete technologies in the emerging market for sustainable buildings.

Themes covered will include emerging technologies, concrete user perspectives, and “hot topics”.

The event will include key speakers from a range of groups with discussion following each topic.

Please see the attached agenda for specific topics and speakers.

COST: \$50.00 (plus GST) – includes breakfast

To REGISTER go to:
